

NWB and DANDI Workshop

hosted by the
Baylor College of Medicine

April 15-16, 2024

Join us for an in-person workshop on Neurodata Without Borders (NWB), a data standard for neurophysiology data, and the DANDI Archive, a collaboration platform for publishing, sharing, and processing neurophysiology data.

Learn how to use these resources to maximize the impact of your data while complying with the new NIH data sharing and management policies.

Monday, April 15, 11-3: NWB and DANDI training

- 11-12: Introduction to NWB and DANDI
- 12-1: Networking Lunch
- 1-2: Converting data to NWB
- 2-3: Publishing data the DANDI Archive

Tuesday, April 16, 9-3: NWB and DANDI hacking & office hours
